## Projects

### Aumhum

Aumhum is an app for learning meditation & yoga, listen to relaxing music and bedtime Stories, practice various breathing techniques, and write journals

Role :- Lead Android developer

[Playstore](#)

### The Voice directory

This app is a job portal for voice artists. There are 2 roles in the app artist and hirer. Voice artists can showcase their profiles and apply for jobs. Heirers post jobs & recruit artists.

Role :- Senior Android developer

### Wowio

Wowio is an app where users can read books inside the app. The books are in .epub format. We built an epub reader inside the app so that the book can only be opened from the app. Save the books data inside the app in an encrypted way.

Role :- Junior Android developer
